Anne of Green Gables

Teaching Unit by

Rebekah Kurtzahn
To The Teacher: Anne of Green Gables is a story about imagination, realization, determination, and a girl who wouldn't give up on her dreams!

This book is very appropriate for grades four through eight and it even could be used for some third graders (if you are comfortable that the student can handle it). It is also just not a story for girls - boys will like it too because Anne always gets into some sort of trouble and most boys like trouble!

This teaching unit was made to be self explanatory. For any reason their needs to be a substitute teacher, she/he will be able to follow the plan pretty easily!

The lesson is outlined in the following way:

- Vocabulary
- Reading Questions - Some have essay questions
- Journal entries - one a day
- Discussion Questions - there will not always be a discussion question for each lesson and some will have two!
- Activity - there will not always be an activity for each lesson and sometimes there will be more than one

Vocabulary: In this book there are a lot of vocabulary words! So, in order for the students to actually learn the words (not always just copying them down from the dictionary) I propose some new ways to go at it:

- Have the students write the vocabulary word using their own sentences - and make sure you also have the students write down the definition right after their sentence.
- Make flash cards for the vocabulary - put the word on the front of the card and the definition on the back
- Make a game out of the vocabulary words - Jeopardy, Charades (have the students act out the word) - any game the teacher feels appropriate using.
- Crossword puzzle
- Basically anything you can think of that the students will enjoy and learn from

Reading Questions: This section is just a conglomeration of questions from each chapter. Take note that these questions may be used as quizzes, if the teacher deems necessary!

Journal: Each day the students will have an entry in their journal to write. Their entries will consist of the following:

- major event(s) that happened in the chapter(s) they read
- question or comment that the teacher gives to them (located in the lesson plan)
- any questions that the students have concerning the book
these journals will be nice to have because the teacher has access to them and can answer the students questions and make comments right in their journal.

Discussion Questions: There is at least one discussion question for each lesson and sometimes there isn’t one at all. These questions/discussions are to see if the students read their assignment and also to spark some interest before and after the class gets started.

Activity: The activities for the lesson are designed to go along with the chapter(s) – some consist of making something, or going on a field trip®. There is not always going to be an activity for each lesson! These activities are always apt to change just like anything else in this teaching unit!

There will also be a reading assignment of one or two chapters a day – the lesson will tell you how many chapters the students should read at the top of the page!

I would just like to stress again that this teaching unit is not set in stone! You can change it for the better as many times as you would like – there is always something new that comes up each year that you might feel like adding or taking away from the lesson – it also depends on what kind of students you have!

Enjoy and have fun with this book! If you, the teacher enjoy it and have fun, it will rub off on the students to make a great year in the reading of Anne of Green Gables!

Give me a fish and I eat for a day. Teach me to fish and I eat for a lifetime.

- Chinese Proverb
To The Students: This year we are going to be reading the novel Anne of Green Gables by L.M. Montgomery. Anne of Green Gables is a very funny and imaginative book that I think all of you will enjoy! This isn't just going to be a "breeze" class - you will have to work your hardest at all times! There will be questions that you need to answer, vocabulary words you are going to learn and many fun activities.

I want everyone to learn and experience success while reading and going through this book. Please come and bring ANY Questions or concerns to me - don't be afraid to come and talk!

I hope you all will enjoy reading this book....So let's get started!

Journal
Explain this Quote: “There is no use in loving things if you have to be torn from them”

Activity
- During class, you and the students can make crabapple tarts. The recipe is on the next page.
- Draw a picture of Anne’s room
**CrabApple Tarts**

Pie Pan(s): 3–6 small tart pans or one 8"–9" pan

**Pie Crust Mix – Plenty-of-Extra Big Batch**

- 5 1/4 cups pre-sifted flour (spoon lightly into measuring cup)
- 2 tsp. salt
- 2 cups shortening

Mix flour and salt in a large mixing bowl, combining thoroughly. Cut in shortening using a blending tool, two knives held in one hand forming a double cutting blade, or mix lightly with a *very* clean hand. Final mix should be evenly crumbly, largest pieces about pea-sized. This will make more than you need. We always make up a large batch of "mix" (everything but the water) which we keep in a sealed container in a cool cabinet or refrigerator. When we need crust, we just pull out as much as we need, add water, and prepare as we would any pie dough.

Preheat oven to 400. In a small bowl scoop out about 1 cup firmly packed mix. Add 1 Tbl. cold water and mix lightly with a fork. Sprinkle more water a little at a time if needed, until dough forms a neat ball. Press dough into pie pan(s). Prick crust in several places. Bake 10 minutes. Meantime prepare filling if not already done.

American Ice Cream Recipe

1 pint milk
2 tablespoons flour
2 tablespoons water
3/4 cup sugar
2 egg yolks
1 cup heavy cream
1 teaspoon vanilla

Scald the milk, stirring constantly. Mix the flour and cold water to a smooth paste and add to it slowly the scalded milk, continuing the stirring. When thickened, cook over hot water for about fifteen minutes. Add sugar and beaten egg yolks and cook two minutes. Strain the custard through a fine sieve and, when cold, add the cream and vanilla and freeze. This makes a smooth, rich cream. For variation, use dark brown sugar or maple sugar instead of the white sugar.

History Enrichment
Orphan Trains

Focus on the period of time Anne was born. Starting with the year 1866 (when Anne was born), make a time line of the events that were happening during this period. Compare and contrast the historical events with the events that are happening with Anne in this book.

When the students complete this activity, they will understand the events that led to the rise in homeless children.

Procedure:
✦ Read reference material that pertains to the time period discussed
✦ Have the class bring in one occurrence that happened during the time of the Orphan Train. Make sure they have the date of the occurrence.
✦ When the assignments come back, discuss each of the historical events brought in by the students and their significance to the orphan trains.
✦ Take the events discussed and chart them on a board by date.
✦ Split the students into groups and have them create their own time line of the events that led up to the orphan trains – this will explain to the children the reason that there were so many homeless children during this time

Prohibition

Have the students research the prohibition act and report to the class about it – you may also have the students do a poster about it!
